

PATIENTS LOVE PANOPTIX®

In a clinical study, 129 patients were asked about their experience with the PanOptix® Lens.

99.2%

OF PATIENTS WITH THE
CLAREON® PANOPTIX®
LENS WOULD CHOOSE
THE SAME LENS AGAIN.¹

98.4%

OF PATIENTS WITH THE
CLAREON® PANOPTIX®
LENS WOULD RECOMMEND
IT TO FAMILY AND FRIENDS.¹

CATARACT BASICS

Cataracts form gradually as our eyes get older. There are more than 3.5 million Canadians currently living with cataracts.²

1 CATARACT REMOVAL

Through a tiny incision, the surgeon removes your clouded lens.

2 LENS INSERTION

The surgeon replaces your original lens with the Clareon® PanOptix® Lens.

3 VISION RENEWED

The Clareon® PanOptix® Lens enhances your vision for clear, complete focus.

IMPORTANT PRODUCT INFORMATION

The Clareon® PanOptix® Trifocal Intraocular Lens is intended for primary implantation in the capsular bag in the posterior chamber for the visual correction of aphakia secondary to removal of a cataractous lens in adult patients with and without presbyopia, who desire near, intermediate, and distance vision with increased spectacle independence.

Refer to the eDirections for Use for more information regarding indications, contraindications, warnings, precautions, and cautions.
